## SUMMARY

---

Enthusiastic full-stack developer skilled in React, Node.js, and software testing using Jest. Experienced with Agile tools like Jira and Bitbucket, and passionate about creating user-friendly web applications while continuously learning through projects and hackathons..

## WORK EXPERIENCE

---

### Full Stack Developer Intern — infoxIT - Butwal

sep 2024 - jun 2025

- Worked on a medical ERP system using the MERN stack, contributing to modules for patient data, billing, and inventory management.
- Performed unit testing and API testing using Jest, ensuring reliable and maintainable code.
- Collaborated with team members via Jira for task management and Bitbucket for version control.
- Assisted in database design using MySQL and optimized query performance for backend services.
- Learned Agile practices through daily standups, sprints, and code reviews.

## PROJECTS

---

### Grosha – Grocery Web Application (MERN Stack)

[Link to Demo](#)

- Built a responsive grocery shopping platform using React, Node.js, Express, and MongoDB.
- Implemented product listings, cart management, and user authentication using JWT.
- Designed a clean, user-friendly interface with Tailwind CSS for smooth navigation.
- Integrated admin panel features for managing products and orders.

### Video Calling Platform (React & WebRTC)

[Link to Demo](#)

- Developed a real-time video calling platform using React, Node.js, Express, MySQL, and WebRTC for peer-to-peer communication.
- Implemented features such as room creation, mute/unmute, and screen sharing for enhanced usability.
- Used Socket.io for efficient signaling and management of live user connections.
- Integrated user authentication with MySQL for secure access and session handling.
- Focused on ensuring low latency and a smooth user experience for both one-to-one and group calls.

## EDUCATION

---

2021 - 2025	Bachelor in Computer Application at <b>Pokhara University</b>	(GPA: 3.6/4.0)
2022	Class 12th NEB Board	(GPA 2.85)

## CERTIFICATIONS / ACHIEVEMENTS

---

- **Java Bootcamp** — Completed hands-on training focused on core Java, Object-Oriented Programming (OOP) concepts, and project-based learning.

- **CCT Hackathon V.1.0** — Participated in a team project to develop a *Marriage Matchmaking Platform* that enables users to find compatible matches based on shared preferences.

## SKILLS

---

Java, JavaScript, React.js, Node.js, Express.js, Tailwind CSS, MongoDB, MySQL, Git, Bitbucket, Jira, Vercel, Render, Jest, Postman, OOP, DSA, Agile, Problem Solving, Team Collaboration, Microsoft Office Suite (Word, Excel, PowerPoint)
